

# HEALTH REFORM Will Help You

Health reform will improve the lives of all Americans. If you have insurance or not, reform will make care more affordable for you and your family.

Four ways health reform will help you:

## **1 Are you paying more for health insurance than you used to?**

Reform will make insurance more affordable by creating a marketplace where insurance companies compete for our business. It's time to put an end to skyrocketing costs.

## **2 Do you have a pre-existing condition? If you do, did you know Insurance companies can price you out of, or deny you coverage?**

Reform will strengthen consumer protections against insurance company abuses. Insurers will no longer be able to deny coverage due to pre-existing conditions.

## **3 Does your family rely on your insurance coverage? If so, your whole family is vulnerable if you lose your job and coverage?**

No matter what happens, your family will have the choice of a quality, affordable insurance plan. Health reform will offer peace of mind through life's uncertainties.

## **4 Do you have a child covered under your plan? When your child becomes a young adult, he or she will "age out" of coverage.**

Health reform will guarantee young adults the freedom to choose a quality, affordable plan that is best for them.

# ACT NOW FOR HEALTH REFORM!

Ask your Senators and your Representative to support reform that offers high-quality, affordable health care for all of us.
