

COMMUNITY ORAL HEALTH BENEFITS

HOSPITAL EMERGENCY ROOM

Jayden goes to the ER with an infected tooth. The hospital gives him a referral, but since Jayden doesn't have dental insurance, he can't afford to get treatment.

Here are some ways a hospital could use community benefits dollars to help Jayden.

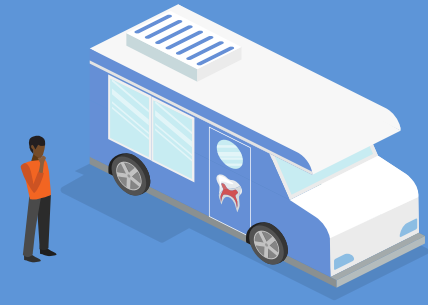

1

VOUCHER

Jayden can go to a dentist in the community using a hospital voucher to pay for his care.

2

MOBILE DENTAL CLINIC

Jayden can go to the hospital funded mobile dental clinic where he can afford care.

3

DENTAL CLINIC

Jayden can go to the hospital funded community dental clinic where he can afford care.

4

ORAL HEALTH COALITION

After he receives his care, Jayden can join an oral health coalition, partly funded by the hospital, to advocate for oral health coverage and improved access to care.
