

# Deductibles Explode under House Repeal Bill

## Deductible for Family of Four Making:

METHODOLOGY: Based on Families USA modeling of plan designs, assuming enrollment in a 65 percent actuarial value plan under ACHA and enrollment in a silver plan, with eligible cost-sharing reduction subsidies under the ACA. All plan models were developed using the Center for Medicare and Medicaid Services 2018 actuarial value calculator. Illustrative models of silver plans were developed using the median deductible and out-of-pocket limit of silver plans with and without cost-sharing subsidies in federal marketplaces in 2016.
