

New Health Coverage for Louisianans

Starting on **October 1**, Louisianans will be able to enroll in affordable, comprehensive health plans through Louisiana's health insurance marketplace. Coverage begins on January 1, 2014.

THE FACTS

353,000

Louisianans will be able to receive financial help for health insurance.

PRE-EXISTING CONDITIONS WILL BE COVERED

1,952,000

Louisianans with pre-existing conditions can no longer be turned down or charged more for coverage.

YOUNG ADULTS BENEFIT THE MOST

38%

38 percent of uninsured Louisianans are ages 18-34. Young adults are the age group most likely to be uninsured, because they are more likely to be unemployed or to earn low wages that make health coverage unaffordable. Therefore, they stand to gain the most.

For example, **more than one-third of individuals in Louisiana who will be eligible for premium tax credits will be ages 18-34** (approximately 126,000 young adults). Furthermore, since young adults earn disproportionately lower wages, they will receive larger premium tax credits than their older counterparts, who generally earn higher wages.

THOSE WITH THE GREATEST NEED WILL GET THE MOST HELP
