

WHY GETTING HEALTH INSURANCE MATTERS FOR AFRICAN AMERICANS

African Americans are more likely to have certain health problems than whites. And they are more likely to get sicker and die from them too. Finding and treating these problems early can make a huge difference. Thanks to the Affordable Care Act, most health insurance must cover preventive services for free, which can lead to better health and a longer life.

Did you know

Free diabetes screenings

Free vaccines for cervical cancer (HPV) and cervical cancer screening

Free blood pressure and cholesterol screenings

You can get free preventive services

Sign up for insurance, then get a free annual check-up and ask your doctor which preventive services are right for you. Get covered & stay healthy!
