CASE STUDY: Chicago Public Schools Integrated Enrollment Model

70,000 uninsured students

- Significant benefits churn from month-to-month
- Inconsistent enrollment personnel throughout schools
- Wide gaps in billable student services in SBHCs
- Students receiving IEP services without health insurance in schools
- Unaccompanied youth and homeless population

PUBLIC CHARGE

Post-Enrollment Support

- 47% cancellation rate at point of renewal monthly [25K cases]
- Cross program eligibility but not identified
- Case management support
- Medicaid Managed Care Roll Out
- Assistance year round, not just in back-to-school

Market Instability Impacting Children's Access to Care

- OE4 saw a significant narrowing in network across learning institutions in Chicago
- Diminished in-network carrier contracts
- Consumer uproar and confusion within critically ill children with private coverage
- Resurgence in Medicaid and All Kids inquiries due to Medicaid's network strength in Illinois

What is on the Horizon in Defense of Children's Insurance Access?

- **Protecting the ACA:** preexisting conditions; annual and lifetime limits on families with healthcare needs
- **Keep Medicaid Strong:** Eyes on restructuring of Medicaid, block grants or per capita grants
- **Support CHIP Funding** and its sustainable extension.

Why We Go to Work in the Mornin'

"There's no such thing as an undeserving four-year old."
